

### Parents Evening

Just a quick reminder that Parents evening will be held this Wednesday from 3:30pm. Please sign up for a time on the sheet on the Parent's information board in the corridor outside class 1. If you are unable to attend and would like to arrange another day please contact the School Office.

### Red Nose day

We had lots of Superheroes in school last Friday for Red Nose Day. We raised an amazing £49.60

### Class 1

Reception went out for a learning walk around Lowca last Thursday morning to explore their local habitat as part of this term's topic. Whilst they were out, they learned about lots of people in the community who help us.

Postman David explained how he delivers the mail to the houses in Lowca and our school every day.

They also met a policeman who stopped and let them take a look inside the police van. Fortunately, he let them out just in time for lunch!

In the infants, we have been looking at half past the hour and understanding what the pointers count. We have continued with our habitats topic, looked at fish and understanding of difference with gills for breathing though they still need oxygen like humans. We ended the week with a little adventure story.

This week we have started looking at money.

### Class 3

Thank you to everyone who came to watch us at the Opera. Daniel McGuirk says he loved all of our songs and being on the stage. Dominic, Ella and the rest of the juniors all agree that it was a great experience for them to have. Everyone enjoyed it very much.

They are now very excited about next week's trip to Walby Farm to finish off our Farming topic.

All of the Juniors have earned "An Explorify certificate for scientific thinking.

### Infection control

We seem to have had a lot of bugs circulating school these past few weeks. The Public Health Agency on infection control in schools states that a child must not return to school until 48 hours from their last episode of vomiting or diarrhoea.
